Professional Pen Display for Excellent and Efficient Creation

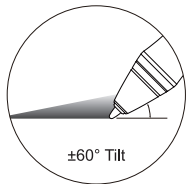

See the beauty of color

Adopting quantum dot technology, Kamvas RDS-160 reduces harmful blue light, reaches 145% sRGB color gamut and can present up to 16.7 million colors, ensuring every image you see on Kamvas RDS-160 is lively and vibrant.

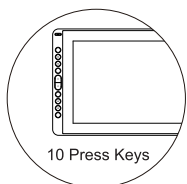

PenTech 3.0 technology for pen-on-paper experience

Digital pen PW517 developed based on PenTech 3.0 technology features a more pen-on-paper drawing experience with natural strokes and low latency. Two user-defined buttons can be set as an eraser, a brush or other functions you prefer. Enjoy the efficient operation brought by PW517.

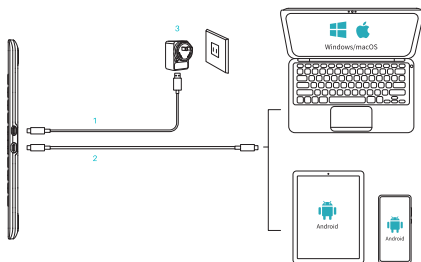

Unleash your creativity with natural strokes

With a built-in high-precision sensor and a novel angle compensation algorithm, PW517 can render lines in different widths and saturation of colors as the pressure applied changes.

10 programmable press keys to improve your efficiency

10 programmable press keys on the left side of the display can be customized to different functions to streamline the workflow and provide a better user experience.

Excellent compatibility & easy connection

Kamvas RDS-160 has two USB-C ports. Users can connect it to a laptop/Android device/Switch via a full-featured USB-C cable or a 3-in-1 cable with an HDMI connector to facilitate your creation.
